ULTRA POWERFUL BURNER

The ultra-powerful triple crown brass burner is able to reach an output of 21.6 mj/h. It's ideal for foods that require cooking over a high heat or for an especially fast preparation when using a wok.

CERAM PROTECTIVE COATING

Smeg's Dolce Stil Novo gas-on-glass cooktops feature ceram protective coating to ensure the long-life performance of these premium components. The coating ensures that the cooktops are easy to clean and won't discolour over time. The smooth finish also allows the burners to blend seamlessly into the cooktop design.

CAST IRON TRIVETS

The solid cast-iron trivets cover the cooktop, creating a harmonious and ergonomic surface onto which pots can be placed and moved safely and securely. In addition to providing a highly professional look, these ensure excellent performance, which remains unaffected over time.

EASYSOON CERAMIC SURFACE

For maintenance of the highly durable ceramic surface, simply wipe with a damp cloth after use to clean any spills.

FLAME FAILURE DEVICE

Safety fitted to all burners, the Flame Failure Device ensures that should a flame be extinguished accidentally, the gas supply to the specific burner is stopped. The burner can only then be reignited by following normal ignition procedure.
